1 Cover & eligibility

Particular	Details
Unit / Project Name	Sri Lakshmi Readymade Garments
District	Guntur
Location	D.No. 12-4-18, Brodipet, Guntur
Nature of Business	Readymade cotton garment manufacturing
Major Products	Cotton shirts, cotton kurtas, school uniforms
Activity band	manufacturing
Booster category	woman
AP domicile	Yes
Entrepreneur name	Smt. Anitha Reddy
Urban or rural	urban
EDP training	completed
Earlier government subsidy	No
Only one person in the family for this scheme	Yes

2 Executive summary & process

Particular	Details
Sector / industry type	Textiles — readymade garments

Short intro — what the unit does

The unit will stitch purchased cotton fabric into shirts, kurtas and school uniforms for retailers and school suppliers in Guntur district. It is a small new manufacturing workshop, not a trading counter and not a spinning or dyeing mill.

Executive summary

Sri Lakshmi Readymade Garments is a proposed new manufacturing unit at Brodipet, Guntur, for cotton shirts, kurtas and school uniforms. Smt. Anitha Reddy, a Guntur resident with six years in garment retail, will run the unit as a proprietorship. The project cost is ₹42.20 lakh, of which the promoter brings ₹6.30 lakh and Union Bank of India is proposed for a term loan of ₹35.90 lakh at 11% for 84 months with a 6-month moratorium. Twelve industrial sewing machines, a cutting section and steam finishing will produce about 80 pieces a day on one shift for 300 days. Year-1 utilisation is 55% and rises to 90% by 2031-32. The unit is urban, the promoter is a woman, EDP is complete, and no family member has taken this subsidy before. Buyers are school suppliers, local retailers and two wholesale traders in Guntur and Vijayawada.

Process of manufacture

Fabric is received in lots, checked for width, shade and defects, and stored on racks. Markers are laid on the cutting table and panels are cut, bundled and ticketed by size and style. Bundles move to single-needle machines for assembly, then to overlock and button-hole machines. Each bundle is inspected for seam strength, measurement and loose thread. Garments are steam-pressed, folded, size-labelled and packed in dozens. School-uniform lots are packed against the buyer's size ratio. Rejects are recut or sold as seconds. Dyeing and spinning are not part of this unit. Water is used only for steam irons and housekeeping.

3 Location

Brief location / market catchment

The workshop is on a commercial lane in Brodipet, Guntur, about 2 km from Guntur railway station and on the city bus route toward Vijayawada. Fabric merchants in Patnam Bazar and buyers in Guntur and Vijayawada are within a short road trip. Power and municipal water are available on the street.

4 Unit profile & capacity

Present / proposed activity summary

The unit is not yet in production. The promoter currently helps in a family cloth shop and will shift to full-time supervision once the machines are installed. Commercial stitching is proposed to start in November 2026.

Particular	Details
Start / commencement	Proposed commencement November 2026
Tools / process level	Industrial single-needle, overlock and button machines with manual cutting
Capacity / throughput	80 garments per day at full capacity

Product	Share of output (%)	Selling price (₹)
Cotton shirts	40	450
Cotton kurtas	35	650
School uniforms	25	380

Particular	Details
Number of looms / machines	12
Shifts per day	1

5 Market & offtake

Target customers / market

School-uniform suppliers, neighbourhood garment retailers in Guntur, and two wholesale traders who supply Vijayawada. No export is proposed in the first three years.

Demand / footfall note

Local school suppliers place two bulk orders a year, before June and December. Retailers take weekly lots of shirts and kurtas. The promoter already has enquiry letters from two uniform contractors and one Brodipet retailer.

6 Premises & utilities

Particular	Details
Shop / shed / workplace name	Sri Lakshmi Readymade Garments workshop

Premises note (own / lease / rent)

Leased first-floor workshop. Five-year lease with a two-year lock-in. Landlord: K. Srinivasa Rao, Brodipet, Guntur.

Particular	Details
Workshop area (sq.ft.)	1800
Production floor (sq.ft.)	1200
Storage / packing area (sq.ft.)	350
Office area (sq.ft.)	250
Lease period (years)	5

Water use and dye wastewater

About 200 litres a day for steam irons, drinking and floor washing. No dyeing and no process effluent. Domestic wastewater goes to the municipal drain.

7 Applicant / firm

Particular	Details
Firm / proprietor name	Sri Lakshmi Readymade Garments
Legal status	Proprietorship
